

A New and Improved AirHead and BitHead ... Again!

We're so happy to re-re-re-re-re-introduce the HeadRoom Total AirHead and Total BitHead.

"Ugh, not again!" you might say.

Hey! Somebody has got to put the very best audiophile grade parts into a little battery-powered plastic tank and try to make the world's best portable headphone amplifier.

"Why?!", you may reply.

Well, because even when you're out and about---and maybe especially when you're out and about---you want that perfect place of personal listening pleasure right between your ears.

That's what we do... And we're just sticking to it.

What's New?

- High-low Gain Switch. Select a gain range appropriate for your headphones
- Improved, silent volume potentiometer circuitry
- High performance audio chips offer even better sound quality than previous editions
- Lower Price! Total AirHead now only \$149. Total BitHead now only \$199
